"The Coin Machines Merry-Go-Round"

By Bill Gersh

OPA TO CRACK DOWN

For sometime now the Office of Price Administration has been closely watching the inflationary market conditions in this industry. A few men have been called in by their local OPA offices and questioned regarding prices. One midwestern coin machines man has just been fined \$15,000.00 by OPA for price violations. OPA is now preparing a national investigation of this industry.

We have never heard of nor seen a price ceiling on used coin operated equipment. We have been given to understand that no such ceiling has ever been set at anytime. Unless OPA can show they did declare a ceiling on used coin operated equipment and show these ceiling prices, then the buyers and sellers of this type of equipment are in the clear. But, the greater majority of purchasers of new machines, new supplies and parts, may suddenly have much explaining to do to OPA.

One of the blackest of all black markets was established in the Photoframes used for the Photomatic machines. Prices skyrocketed to such high levels that some operators of this type of equipment found it more profitable to sell their frames than to operate their machines. (International Mutoscope Corp., published a page ad about Photoframe ceiling prices in The Cash Box a few months ago.)

The buyer is just as guilty as the seller. It takes two to make a black market. OPA seems to have become incensed over the inflationary prices which exist in this industry at this time. Cable has skyrocketed far above ceiling price. Much new equipment advertised today is higher than what it originally sold for (at list price) by the factories, especially new slots and one-balls. Plastics have gone to such stratospheric prices that the ceiling is hidden somewhere far below the clouds. Tubes and parts of all types have also zoomed to unheard of heights. .22 calibre ammunition is still being openly advertised at black market prices. Other instances are too numerous to mention.

OPA officers have already advised certain members of this industry that they are out to make a complete, national investigation of price ceiling violations. This means that some men are going to be hurt where it hurts most - in their pocketbooks. Fines are extremely high. Whatever system OPA uses for arranging its fines, it certainly is an inflationary one, even more inflationary than the price violations they cope with.

Once again we bring to light the fact that "open" price publication is injurious to this industry. We have long asked certain leaders in this industry why prices should be as well known to storekeepers, and other outsiders, as to the men engaged in this industry. And as is well known to all, these prices not only reach politicians and local authorities, but also into government offices, where WPB, ODT, OPA and the Internal Revenue Dept., and all other officials, have the opportunity to carefully look them over. The continued future good welfare of this industry requires that "open" price publication be eliminated.

OPA is getting all set to financially hurt some of your friends and mine who believed sincerely that they had no ceiling to contend with. We urge the subscribers to The Cash Box to be extremely careful regarding price publication on all new merchandise, especially in such media that reaches into official hands. And we also suggest that if you feel you may have been out of line on new merchandise that you instantly refrain and attempt in every possible fashion to guide yourself correctly in the future.

OPA TO SET UP INDUSTRY ADVISORY UNITS

Establishment of a system of industry advisory committees was announced by OPA on June 9th. The move, according to Administrator Prentiss M. Brown is intended to assure OPA the benefit of advice from those connected with all industries affected by price regulations. "It is my desire that industry advisory committees be set up immediately thruout the entire agency as a matter of administrative policy rather than waiting for demands of industry exercising their rights under the Emergency Control Act", Brown stated in a memo to the OPA staff.

"The Coin Machines Merry-Go-Round"

Louis H. Harris has been named chairman of OPA's industry council, with full responsibility for setting up an operation of industry advisory committees. These committees will make recommendations and give advice to OPA with respect to industry matters in preparation of price regulations. So that the committees will be representative of an industry the OPA staff has been instructed to take into account substantial differences in position and method of operation of the various concerns engaged in production and distribution, between geographical locations, between small and large concerns and between integrated and non-integrated concerns.

These industry advisory committees offer an unusual opportunity for the members of the coin machines business. Here is the chance that many have been awaiting to once and for all clear away the doubts which have lingered in this industry regarding whether or not this business was in any fashion whatsoever violating any of the many rules and regulations which OPA has set up since its inception. It is the belief of The Cash Box that an appointment of someone in this industry to council with OPA regarding matters pertaining to this business should be offered to Louis H. Harris, and in this fashion the men in this business would have someone to advise, guide, and protect them at all times.

MORE REVENUE FOR UNCLE SAM

As many already know the President of these United States is once again going to ask that taxes be increased. Tho many politicians are out to fight him at every turn of this road, there is no doubt that they, too, realize the great need for this additional taxation and will eventually, after glorying in the limelight for a time, have to give in and go along.

The need for revenue grows greater every minute. The new fiscal year (beginning on July 1st) on which the Federal government is entering will require somewhere in the neighborhood of \$104 BILLIONS to successfully continue this war. This will mean a tremendous increase in all taxation. One of the proposals already made to the president that a 10% sales tax be put into effect was turned down. The president stated, "It would hurt the poor more than anyone else".

Higher taxation will surely be applied to all luxury items. Excise taxes will be increased. This means that coin machines may possibly be in for another tax raise. Cigarettes and tobaccos are sure to again be taxed. Beer, liquor, wines, etc., will also have to endure more taxes as will other items in this category.

This is the time for Someone to help the Treasury Dept. steer away from all other types of coin machines by a clear and concise explanation that if counter games are taxed but \$10.00 (or even \$25.00) per year that the government is sure to gain additional millions of dollars from these. Not only will this help all the industry for it will again bring this equipment back into use, but it will prove extremely helpful to Uncle Sam who needs every penny he can get.

One of the plans which Samuel (Curley) Robinson of A.O.L.A.C. has in mind is to help put this counter games idea over with the Ways and Means Committee when they meet with him. We believe that he can do better here than with whatever other plans he may have. We personally suggest concentration on this plan. Here is something that means opportunity for all concerned.

FASTER TEMPO FORSEEN

It is the general belief among certain leaders in this industry that the tempo of this business, which has been extremely turbulent for sometime now, will become even speedier. And that the men engaged in this industry will be in an era where speed merchandising will prove of as great importance as the continuance of this business itself. These men feel that this industry is going to have to assimilate a great many of the young men now at war. They believe that these young men will enter into this business with the belief that they have to work fast to make up for the time they have lost in the armed services.

This will create one of the fastest tempos which this industry has ever known. An injection of such blood into the veins of this industry will prove extremely beneficial. It will awaken many to the need for better business methods. It will also awake many to the need for greater collaboration with their fellow coinmen. It means that those men who are today the leaders in this business, to remain its leaders, will have to adopt new and better and speedier techniques and in so doing they will help all others in this business to a more profitable future.

"Of course", these leaders state, "this speedier tempo will really begin to make itself apparent after the war is won and the men begin to return from the armed services". They feel that at that time an entirely new method of business dealings for the men engaged in this industry will have to be arranged. They also feel that the larger manufactories will, of necessity, adopt new merchandising tactics, in keeping with the faster tempo which will come about. In short, this industry is speedily rolling to the point where a new type of business method will prove most essential to profitable continuance.

"The Coin Machines Merry-Go-Round"

POST-WAR JOBLESS ERA

Sometime ago The Cash Box reported that there was a great possibility of a short and hard depression following the successful conclusion of this war. This would be to the advantage of the cointrade which has found from past experience that men temporarily out of work are always interested in the economical amusement offered by this industry.

This report now seems to be borne out by the statement of the Department of Commerce which estimates that there will be approximately 19,000,000 jobless persons in the U. S. after the war even if the production of goods and services will be as high as it was in the best pre-war years.

The Dept. of Commerce found that in 1940, when production of civilian goods was at its highest in U.S. history, some 9,000,000 workers were unemployed. Between 1940 and 1943 they estimate that 2,500,000 persons have been added to the available labor force. They also learned that in addition the efficiency of labor has increased so much that 8,000,000 fewer workers will be required to turn out the volume produced in 1940.

All this tends to not only prove the point which The Cash Box brought forth these many weeks ago, but most definitely sets the stage for greater expansion of the coin machines industry during the post-war era and also assures greater play than this industry ever formerly enjoyed, regardless of the expansion that will come about.

HONORABLE MENTION

This week we take great pleasure in giving Honorable Mention to Wm. (Bill) Rabkin of International Mutoscope Corp. for the marvelous organization work he is doing which has won much honor for all this industry and has reflected upon this business with great credit.

We also give Honorable Mention this week to Irving Folberg of Irving Sales Co., Milwaukee, Wis. for his work with the Coast Guard Reserve and for the fact that he is urging that all coinmen join the Coast Guard Reserve as one of the real ways of cooperating with Uncle Same at this time.

PAT-ON-THE-BACK DEPT.

Frank P. Carty, salesmanger of Davis Sales Co., Syracuse, N.Y., writes, "During the past year it has been our good fortune to be a subscriber to your paper. May we, at this time, say it has reaped us rich rewards."

Thomas D. Sullivan of Sullivan-Nolan Advertising Co., Chicago, Ill., writes., "Like the Sullivan-Nolan Advertising Co., your stick-to-itiveness has won The Cash Box a most welcome position in the coin machines field. We have found The Cash Box to be a very influential factor among the operators and distributors and its vast pulling power has been a great help to us for the entire period during which we advertised. The Cash Box surely brings results. We believe that this applause we give The Cash Box has been earned as a business getter."

Edward Casnoff of General Coin Machine Company, Philadelphia, Pa. writes, "May we take this opportunity of wishing you the best of luck on the fine success you have made in the past year, and upon the occasion of the First Anniversary of The Cash Box, and hope that it will continue to run for many years. We are certain that it will continue to be a factor for good in our business."

Robert W. Hunter of Dixie Sales Company, Memphis, Tenn., writes, "Congratulations from Dixie on the First Anniversary of your publication. We look forward each week with considerable interest to receiving The Cash Box and know that we can depend on it for up to the minute news of what's what in our line."

Wm. Nathanson of Los Angeles, Calif. writes, "Sometime ago we were to place a one page ad with your magazine, but the small space we are getting free with our subscription is actually doing wonders for us. Thru this small ad we have obtained and sold a large amount of merchandise in a short period of time."

PRICES CONTINUE TO ZOOM

A great deal of comment was stirred up among the readers of The Cash Box in this past (First Anniversary) issue where we produced for the first time in the history of this industry a "Market Analysis Chart". Being extremely complete in detail it showed the price rise in graph form and was therefore easily understood by everyone. Since then we have been in receipt of much mail inquiring as to whether prices are continuing to show an upswing or whether they are being averaged off by the older equipment and the price rise therefore being lowered from this past year's record jump. We are answering these inquiries openly - prices continue zooming.

A (1945) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

We want to thank everyone who helped make our 1st Anniversary Issue a great success - both advertisers and subscribers. We promise that we shall continue to present a publication devoted entirely to the best interests of all coinmen. We shall offer the benefit of our experience, and shall dig into all problems as they occur and present them without prejudice or fear - because we know The Cash Box reaches only those people for whom the articles are written.

George J. Wanisko, The George Vending Co., Catasauqua, Pa. writes us we inserted wrong copy for his ad in the June 15th issue and caused some confusion. The ad should have read "(2) Mills 3 Bells and one Keeney Four Way Super Bell - for - 3 Mills Four Bells (4) nickel play". George concludes his letter "These games were sold the first day of my ad".

The New York Daily News carried the following story. "PINBALL SKILL NO LEGAL SIN". "You're not gambling when you play a pinball machine - not if you're skillful enough, Supreme Court Justice Frank E. Johnson ruled in Brooklyn, N.Y. Because the element of skill counterbalances the element of luck, he held, The Scientific Machine Co. is entitled to recover its baseball and basketball games seized by the police a year ago.

Bill Gross, Lehigh Specialty Co., Philadelphia, Pa. writes "Just became the father of another girl - oh well!"

Visitors keep pouring into New York City looking for equipment. No sooner did K. F. "Wilky" Wilkinson, United Amusement Co., San Antonio, Texas and George Prock of Dallas, Texas, leave - others arrived. Collis Irby of Walbox Sales Co., Dallas, Tex. with two Texan friends spent a few days seeing the sights and doing some business, as did Earl Montgomery of S & M Sales Co., Memphis, Tenn.; Frank Engel, Automatic Equipment Co., Philadelphia, Pa.; Harry Wichansky, Atlas Vending Co., Elizabeth, N.J., Ed. Ravreby, Owl Mint Machine Co., Boston, Mass.; C.A. Borroughs, Superior Music Company, Conway, S.C.; Max Lipin, Allied Music Sales Co., Detroit, Mich.; Al Goldberg, Chicago Simplex Distributing Co., Chicago; and M. G. (Mike) Hammergren, The Rudolph Wurlitzer Co., North Tonawanda, N.Y.

In the "Odd Coins" June 22nd issue, one of the items mentioned for October, 1942, that Mr. Harold Perkins (Buckley Music Systems) died. This was an error by the printer - it should have read "Mrs.". Sorry, Perk!

Fred Iverson, Eastern Sales Co., Rochester, N.Y. phoned in to find out about the prices quoted in his ad. Orders were coming in before he had even received his issue. Fred tells us he has a fine stock of Q.T.'s and Vest Pockets at attractive prices.

Joe Westerhaus, Westerhaus Amusement Company, Cheviot, Ohio, called up to compliment The Cash Box on the "wonderful issue". Thanks, Joe!

We've received many requests from leading coinmen thruout the country for additional copies of The 1st Anniversary Issue as they want to take it home and save it because of its historical value.

Irv Sommer, Modern Vending Co., Miami, Fla. who does a lot of good thinking, makes a very optimistic statement in a recent letter. Irv writes, "There is a decided spirit here among military personnel of high rank, and we have rounded the corner and are now on the home stretch. As you know, dictatorships cannot fight uphill battles. They are good winners, but when the going gets tough, look for holes to run into". (We, too, hope it won't be long!)

This page is for you! If you believe you have something you want to tell the trade. If you feel any certain event that has happened to you, or has taken place in your territory and should be known to all the trade - drop us a line. If you have taken on a new line - if you increase the size of your quarters - if you move - or if you have any personal item at all.... Send it to "Odd Coins".

CONCLUSIONS

The results of the survey show that the
economy of the country is in a state of
decline and that the government must
take immediate action to reverse this
trend.

The survey also shows that the
population is suffering from a lack of
basic necessities and that the government
must take steps to improve the living
conditions of the people.

The survey also shows that the
education system is in a state of
collapse and that the government must
take steps to reform the system.

The survey also shows that the
health system is in a state of
collapse and that the government must

QUALITY *HIGH CLASS* *VERY CLEAN* *LIKE NEW* *GUARANTEED*
RECONDITIONED *MECHANICALLY PERFECT*

A lot of beautiful, descriptive adjectives used by thousands to describe their wares SO GENEROUSLY USED AS TO BECOME MEANINGLESS. Due to war conditions, manufacturers identities to their products have been dropped in most cases.

Since practically all equipment now being purchased is used, a machine is only as good as the firm that sells it.

So We Will Just Say "A SEIDEN MACHINE"

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- 1—Means price went up.
- 2—Means price went down.
- 3—Means this machine just added to list.
- 4—Means prices went up and down same week.
- 5—Means prices remained same as in past week's issue.
- 6—Means no prices quoted for this machine this week.
- 7—Means no prices quoted for this machine for past two weeks.
- 8—Means no prices quoted for this machine for past three weeks.
- 9—Means no prices quoted for this machine for past four weeks or longer.
